Tag Day For Vetreft Poppies on Saturday

Public Urged to Purchase Emblem of Sacrifice to Aid Distressed Soldiers

Organization was completed at a meeting of the Canadian Legion for the sale of poppies, and the annual tag day will be on Saturday, Oct. 31.

Convenor of the committee is Mrs. Havelock Hulbert, assisted by members of the Ladies Auxiliary and the Legion. Six teams of girls will canvass the homes, and will take turns on duty at the bank. Small poppies will be on sale at 10c and large poppies 25c, which everyone is urged to buy.

If available, the west half of the Elite Confectionery will be Poppy Day headquarters for the committee and the girl canvassers, Mrs. Bell having consented to donate its use if not required.

Local Coal Companies Broadcasting National Airs, Friday Evening

Every Friday night over CFRC Calgary, programs of national airs of Scotland, England, Ireland and Wales will be broadcast from 9 till 9.15. To-morrow evening a program of English airs will be given, the following week Scottish airs, and the others will follow in order. These programs will be continued during the winter months, advertising the superior qualities of Mc Gillivray coal as prepared by its new cleaning plant.

A new cleaning plant will be installed at International mine, so that coal from both Coleman mines will be a superior product which will make it more in favor with large industrial plants and public buildings and institutions.

Corry Celli, son of Mr. and Mrs. Frank Celli, was recently honored at Kinman Business University, Spokane, when he was elected secretary in the National Honorary Fraternity of that school. He is well known at KBU for his exceptional ability at the piano and his accomplishment of becoming orchestra leader of the school.

Attention is directed to the sale advertised in this issue by Bowen's Furniture Store.

4. The dignity of simplicity.
5. The worth of character.
6. The power of kindness.
7. The influence of example.
8. The obligation of duty.
9. The wisdom of economy.
10. The virtue of patience.
11. The improvement of talent.
12. The joy of originating.

Badminton Club is Re-Organizing

First Practice on Sunday Afternoon in Community Hall and All Interested Invited.

For several years badminton players have carried on their pleasant club activities and have enjoyed inter-club visits with players in other towns, including Lethbridge and Cranbrook.

Harry Gardner, this year's president, anticipates a membership of at least 40 members this year, and asks all interested to attend on Sunday afternoon, when a practice will be held, followed by a re-organization meeting of the club when plans will be completed for the season's activities.

Polish Society Visited By Acting Consul Bielinski

Welcomed at Concert Held in Polish Hall on Sunday Evening—Fine Program

On a hurried trip to the Pacific coast and return, visiting centres where Polish societies are established, Mr. Michal E. Bielinski, acting consul for western Canada, spent Sunday with the society here, and left on Monday for Lethbridge and Regina, enroute to Winnipeg.

In his honor a fine program was given in the Polish hall on Sunday evening, when national dances were given by young children, nine and ten years of age, in Polish costumes. Their director, Miss Murray of Winnipeg, who has been visiting here for some time, is to be commended for her good work.

In an interview with Mr. Bielinski, he stated that the local society is functioning very successfully among the people of the Pass towns, and between Coleman and Bellevue there are approximately 100 members. Accompanying the vice-consul on his visits in the Pass were Ignace Maciejowski, president of Coleman (Continued on Page Eight)

Local Aerodrome on Trans-Canada Airways Route

Runway of 3,000 Feet, 500 Feet Wide, Will Provide Aerial Transportation Facilities For Crow's Nest Pass Towns.

Having journeyed from Ottawa to Vancouver by air, inspecting while en route 14 of the 20 airfields in the Ontario section of the Trans-Canada airways, A. D. McLean, Superintendent of Civil Aviation, Ottawa, whose department is administered under the Department of National Defence, is making the return over the mountain section of the Trans-Canada route by automobile. He arrived here Monday night and spent part of Tuesday making a thorough inspection of Coleman Intermediate Aerodrome, as it is officially termed. He expects the air mail and passenger service to be inaugurated between Winnipeg and Vancouver in the early summer.

He was accompanied by Robertson, of Regina, who is superintendent of the radio services being installed on the western sections in connection with the airways.

Regarding the experimental radio station now in operation at Sentinel, it is not yet known where the permanent location will be, as this will be determined after it has been decided which will be most advantageous in maintaining connection with other airports, and air-planes while travelling.

When the grading work is completed on the airfield here, there will be a runway of about 3,000 feet, 500 feet wide, and it will be seeded to grass to prevent soil drifting. There is a possibility of a private service being inaugurated from this field to link up Calgary and Edmonton, as a commercial company has interviewed some local men in an endeavor to obtain financial support for the proposed service.

Coleman will possess the advantage of being on the trans-Canada air map, and though it will not be on the scheduled stops of the through service, it is highly probable that a feeder service will be developed between Coleman and Lethbridge.

Joe Speivak returned Wednesday evening from Spokane where he had gone to drive back his car which had been damaged in a collision in that city a few weeks ago.

THIS COUNTRY without the weekly newspaper would be like a ship without a rudder. The weekly will not only survive but will grow and develop as one of the most wholesome influences in any community.—John H. Casey, professor of journalism, University of Oklahoma.

Girl Guide Activities in Coleman

Mrs. L. Morgan, District Commissioner, Inspected Coleman Companies, Presented Badges

Saturday, Oct. 17, marked the opening of the newly instituted "Guide Week." Canada's chief commissioner, Mrs. Warren of Toronto, gave an address over a network of Canadian radio stations, outlining briefly the work and aims of the Movement.

On Sunday each company was represented at a church, the Rangers and First Co. attending St. Paul's and the Second Co. going to the Holy Ghost church.

Monday afternoon Mrs. Pardee of Edmonton, provincial commissioner for Alberta, spoke over the radio on the development of Guiding all over the world. Starting with a small group of girls in England the movement has increased until now there is a membership of over 1,000,000 girls in almost every country in the world. Canada has an enrolment of over 50,000 girls.

The "Lone Guide" division is being particularly stressed. To girls who are separated from

Eastern Star 16th Anniversary

The sixteenth anniversary of the Minerva Chapter will be held on November 12. Following the lodge meeting there will be a card party to which Masons and their families and Eastern Star members and their families are invited to come. The meeting will be as usual in the Italian hall.

Members of Elks Lodges from Granum, Lethbridge, Blairmore, Coleman and Macleod met at the latter place on Tuesday evening, about 28 members from Coleman spending a very enjoyable evening there and returning in the early morning of Wednesday.

Others by either distance or some physical handicap, this part of Guiding has proved very helpful. Anyone knowing of such a girl may communicate with either Guide headquarters at Toronto, or get in touch with a guider in the community.

On Thursday night Mrs. L. L. Morgan, district commissioner, inspected Coleman Rangers and the First and Second Guide Companies at the Catholic hall. One girl was enrolled as a member of the second company. Several badges were presented by the commissioner; girls in all three companies received the badge.

Mrs. Morgan read a very interesting paper on Guiding and the movement in general.

Owing to the short notice the "Week" program, as suggested by headquarters, was not able to be carried out in its entirety, but it is expected that next year more attention will be given the matter.

Coleman's Vimy Pilgrim Came Home on Sunday

Visits Same Spot on Vimy Where he Went Over the Top in Famous Battle.

Returning to Vimy Ridge 19 years after he took part in the famous battle which opened on April 9, 1917, Jack Wilson, originally of the "Princess Pat," has a fund of interesting incidents to tell of the Canadian Legion pilgrimage, and the unveiling of the memorial to Canada's dead. It is impossible in the space available to give more than passing mention of the trip to France, the parade to the Cenotaph in London and the garden party at Buckingham palace. The section of trenches in which he fought is still preserved, though No Man's Land to-day is not the shell swept devastated area it was at that time. In fact localities they knew so well in the war days have been so transformed into peaceful countryside it is hard to recognize the old battle areas over which the war raged.

It is hoped to give more details in later issues of some of the phases of the Pilgrimage.

ANNOUNCEMENT

A. Melville Anderson, eyesight specialist, of Calgary, will make his next visit to Coleman.

TUESDAY, NOVEMBER 3rd, 1936 at the jewelry store of J. M. Chalmers, Coleman.

Over 20 years experience and regular visits to this town assure you satisfaction in all optical work.

Selecting Municipal Representation

With the near approach of the annual municipal elections in urban centres and rural districts throughout the prairie provinces, the time has arrived when citizens might well devote some serious thought to the type of men (or women) who should represent them in the local councils during the coming year.

While at all times the question of the quality of representation on municipal councils is one of considerable importance, this year it is one of much magnitude, partly on account of the difficulties of local government occasioned by problems arising out of the depression and partly because of the restlessness of the changing times and changing viewpoints, particularly on social and economic problems.

From small but vociferous minorities one hears of suggestions and plans for changes which, if put into effect, might constitute a threat to the continued existence of democratic government in this country and there is always a danger, under a democratic form of government, of minority groups imposing their will on the majority, if the majority are apathetic about the conduct of their own affairs.

For this reason, if for no other, it is highly important that the citizens of this country take an active and intelligent interest in their own business—the business of government, whether it be in the local councils, the provincial legislature or the wider Federal arena.

It is unfortunately the case that sometimes municipal election issues are decided by a comparatively small percentage of the electorate because so many refrain from going to the polls to express their desires through the ballot. If this results in the election of representatives unacceptable to the majority and the imposition of policies inimical to their interests those who refrain from casting their ballots on election day have no "come-back" and deserve none.

To many it may seem that local affairs are of little importance. They appear trivial when matched with provincial issues or Federal policies and this misapprehension sometimes leads to an attitude of nonchalance on the part of a section of the electorate.

On the contrary, however, it should be remembered that despite the fact that local municipal units are the creation and, therefore, the creatures of a superior government, nevertheless local self-government is the bulwark of the people and of all government, and with the extension of activities and authority imposed upon municipal councils in recent years is becoming increasingly so.

Not only that, but in many matters closely affecting the lives and welfare of the citizens of the country, the major governments have adopted the custom of seeking the advice and assistance of local municipal representatives in an increasingly large measure. They regard them, properly, as the mouthpiece of the district they serve and more often than not defer to their wishes.

For this reason, as well as the necessity of having men capable of administering local affairs wisely, it is highly important that the municipal electors use care and sound judgment in selecting the men who are to represent them in the councils, that all the electors participate in the function of casting the ballot and that once having made their selection the electors support their representatives as long as they prove worthy of the high trust imposed in them.

If the great majority of the electors take these duties seriously, less will be heard of trivial matters being injected into municipal election campaigns and municipal council debates and there is less likelihood that elected representatives will listen to insistent demands of organized minorities or individuals who seek concessions or make proposals adverse to the interests of the great rank and file of the electorate.

One sometimes hears it stated that it is difficult or impossible to induce the best-fitted, to accept nomination for public office. If that is so, it must largely be the fault of the percentage of the electorate who decline to take an active interest in their own affairs, both in the matter of selecting candidates and in giving them hearty support in devising and carrying out measures and policies for the benefit of the community as a whole.

Such comments are not, of course, applicable to all municipalities, and perhaps not even to a majority of them. In many cities, towns, villages and rural municipalities in the three prairie provinces, the electorate demonstrates a highly intelligent and active interest in its own affairs, and as a result their business is conducted wisely and well by capable men and men of integrity who justly command a respect and confidence which is not confined to the communities they serve.

Dog Solves Crimes

**Does Valuable Work in Connection
With Duties of Mount Police**

"Dale," a big black and tan with a keen nose and a marked devotion to duty, is now a valued member of the Royal Canadian Mounted Police establishment at Calgary.

Dale is a dog who has done such remarkable work in solving a number of crimes in the Calgary district that he has won honorable mention in the Royal Canadian Mounted Police annual report, just off the press. It takes a full page in the report to describe the dog's exploits.

Here are a few of the crimes in which Dale distinguished himself:

Eileen Simpson, two and a half years old, wandered away from her home. A search party failed to find her. Dale was called in and did.

Under difficult conditions Dale helped police in connection with the murder of Sergeant T. S. Wallace and Constable G. C. Harrison by Joe Posenkoff, Peter Wolken and John Kalmakoff, who were killed themselves in gun battles with the police.

Dale traced a demented man who caused an explosion in a farmer's house from a gasoline saturated mat of underwear found at the cellar door. The same farmer had lost two rolls of wire netting. Dale was taken to the place from which the netting was removed. He picked up the scent, found the wire and led to the arrest and conviction of the thief.

But Dale is ornamental as well as useful. He took first prize in his class at the Calgary dog show.

Supplies Reach Coppermine

**Hudson's Bay Boat Gets Through
The Ice After Difficulties**

Relieving anxiety which has lasted for months, supplies have finally reached Coppermine, principal base in the Central Arctic, according to reports reaching Edmonton. Blocked for weeks by huge ice floes in the Arctic the schooner Audrey B., under charter to the Hudson's Bay Company, carrying supplies to the trading posts, has finally made its way through the ice of Coronation Gulf, reached Coppermine, and now is frozen in at that point.

Owners of the schooner, Jack Lickert, Bill Storey, Art Watson and "Slim" Purnell have sent word of their safe passage and a radio telegraph message to this effect has been received in Edmonton.

The other Hudson's Bay supply ship, made Coppermine safely on October 6. Aboard her was Ray Ross, company post manager of Reid Island, and his bride, the former Miss Lillian Smith of Edmonton.

No Campaign Speeches

**Alaskan Woman Is Elected By
Voting Voters By Airplane**

Alaskan woman legislator, Flying Nell Scott, was elected without making a single campaign speech. The Selkiew woman's aerial campaign ignored both political practice and traditions of feminine talkativeness. She let her masculine opponents have the first and last word, while she took the votes. She covered the district in an airplane, having heart to heart talks with individual voters and key persons in organizations. Her platform was based on popular Alaskan issues: Abolition of the traps; enactment of a local security legislation; financial aid to prospectors; substantial bounties on predatory animals, and more and better aeroplane landing fields.

U.S. Naval Strength

**America's Naval Fighting Power
Has Been Reduced**

An official report disclosed that America's naval fighting power had been reduced since July 1 while other major nations were increasing theirs. The figures, made public by the navy department, showed the United States, chiefly by scrapping old warships in accordance with provisions of the soon-to-expire London treaty, had cut its naval strength from 324 ships of 1,080,715 tons to 306 ships aggregating 1,062,875 tons.

Streamlined steam locomotives constructed for an eastern railroad have fins around their smokestacks to deflect the smoke upward to give the engineers the best visibility at all times.

The music of "America" also is the music of the national anthem of the British Empire, Denmark and Switzerland.

Sydney, Australia, will spend \$5,500,000 on the city railway.

An Englishman invented matches 100 years ago.

Letter Of Thanks

Mayor Of French City Vows Gratitude For Gift From Canadian

The pilgrimage of Canadian ex-servicemen and their dependents to Vimy Ridge during the summer was recalled by receipt of a letter of thanks from Mayor Millot, of Valenciennes to Lieut.-Col. J. S. Rankin, D.S.O., former commanding officer of the 4th (South Saskatchewan) battalion.

The letter, voiced the gratitude of the city for the vellum-bound copy of the operation order covering the attack on Valenciennes on November 1, 1918, in which affairs the late Sergeant Hugh Cairns of the battalion, won the Victoria Cross.

The day prior to the unveiling of the Canadian Memorial on Vimy Ridge the city of Valenciennes dedicated a street to the memory of Hugh Cairns, and in the course of the ceremony Mayor G. H. Gilbert, M.C., Yorkton, Sask., on behalf of the 4th Battalion, presented to Mayor Millot the copy of the operation order.

In his letter the mayor said this document was now translated into French, and had been placed in the municipal library "in order that the citizens of Valenciennes might know to whom they are indebted for their deliverance."

Substitute For Gasoline

**Amateur Chemist Says Invention
Will Benefit The World**

An obscure Pittsburgh inventor and interior decorator, who likes to dabble in chemistry on the side, claims to have hit upon a secret formula from which he asserts he has developed a substitute for gasoline.

He believes his discovery, which has not yet been put on the market, or been protected by patents, will "revolutionize the gasoline industry."

The amateur chemist is Frederick J. Hoyer, and, as one example of the manner in which his "gas substitute" will benefit the world, says general use of his "gas" would greatly reduce, if not erase entirely, deaths from monoxide fume poisoning.

In a recent demonstration of his discovery Hoyer, accompanied by his attorney, A. F. Burkardt, and a reporter drove a car with standard equipment fourteen and one-half miles on a gallon of ordinary gasoline, and one-tenth of a mile more on a gallon of what he said was his "gasoline substitute."

At the completion of the last demonstration, Burkardt declared: "Well, as far as we are concerned, this new fuel is perfected."

SELECTED RECIPES

FRUIT OATMEAL COOKIES

1 cup brown sugar
1 cup white sugar
¼ cup butter
2 eggs
½ cup currants
1 teaspoon soda
1 cup Purity Flour
3 cups oatmeal.

½ cup stoned dates, cut finely
Method: 1. Cream butter; add sugar. 2. Add well beaten eggs, dates and currants. 3. Sift flour with soda and add to Mixture No. 2. 4. Lastly, add oatmeal; stir well. 5. Form into loaves, set in cool place, let stand overnight; then slice thinly and bake in slow oven of 300 degrees for 15 minutes.

Drouth Danger

Little mentioned among the drought hazards to cattle is the possibility of the animals eating the hearty Sudan grass, cane or any kind of grain sorghum which, although stunted in growth by the dry weather, will stay green long after the normal feed grasses have withered. The Department of Agriculture reports that in eating these plants live stock may consume a deadly dose of hydrocyanic or prussic acid, present in the plants.

Argentina has greatly increased in peanut production this year.

A Precious Relic

**Interesting History Of Coronation
Chair At Westminster Abbey**

While the work of preparing Westminster Abbey for the coronation next May is proceeding, one important relic at the Abbey will undergo no renovation, the Coronation Chair, according to a writer in the Manchester Guardian.

Except for dusting it requires nothing done to it, and it would not stand much. The famous stone of Scone—and it had a history in Ireland before it was taken to Scone—has a wide crack which all but rent its solid mass asunder, and iron rings encase the chair. It is not only age which has caused the wear and tear. Though every monarch since Edward I. has been crowned on it, the use it has undergone on those occasions has been negligible.

For a long period of its history it was very poorly looked after. Nearly everybody, it seems, was allowed to sit in it by permission of the attendants, or else did so on the sly. An inscription on it, "Peter Abbott slept in this chair, July 5th, 1880," is illuminating. For Abbott went into the Abbey at night for a bet that he would carve his name on Purcell's monument. He did not succeed in doing that, but he had no difficulty on the Coronation Chair. The surface of the chair is a mass of scratches made by visitors who wanted to leave their mark on it, and there must have been a time when every Westminster schoolboy deemed it a disgrace if he left school without carving his name on the Abbey's most precious relic.

Amazing Fast Flight

**Birds Fly From Florida To Alaska
In A Month**

Among the most amazing instances of the speed with which some species of birds accomplish their migratory flights cited by Frederick C. Lincoln of the bureau of biological survey in his pamphlet, "The Migration of North American Birds," is that of the gray-cheeked thrush.

"This bird," Lincoln says, "winters in Colombia, Ecuador, Peru, Venezuela and British Guiana and does not start its northward journey until many other species are well on their way. It does not appear in the United States until the last of April—April 25, near the mouth of the Mississippi, and April 30 in northern Florida."

A month later, or by the last week in May, the bird is seen in northwestern Alaska, the 4,000-mile trip from Louisiana having been made at an average speed of about 130 miles a day."

Berlin's percentage of police is 2.4 per thousand of population, while that of England is 5.05, and France, 3.15.

In Asia, the land of extremes, Mount Everest is 29,000 feet high, while the Dead Sea is about 1292 feet below sea level.

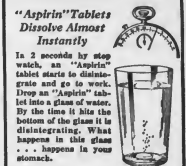

This New Firestone GROUND GRIP TIRE makes its own road

Proved AS THE GREATEST TRACTION TIRE FOR SNOW AND UNIMPROVED ROADS

WHERE the going is toughest—through deep mud, snow or unimproved roads—Firestone Ground Grip Tires take you safely through without the use of chains. The patented Ground Grip tread grips on any surface—is self-cleaning and gives positive traction. Don't take chances of getting stuck in soft roads. Firestone GROUND GRIP TIRES FOR CARS, TRUCKS AND TRACTORS

Now Ease Neuritis Pains Fast

"Aspirin" Tablets Dissolve Almost Instantly

In 3 seconds by drop watch, an "Aspirin" tablet starts to disintegrate and go to work. Drop an "Aspirin" tablet in a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass happens in your stomach.

For Amazingly Quick Relief Get "ASPIRIN"

If you suffer from pains of neuritis what you want is quick relief. "Aspirin" tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly the touch moisture. (Note illustration above.)

Instantly when you take an "Aspirin" tablet it starts to dissolve almost as quickly as you swallow it. And this is ready to start working almost instantly—headaches, neuritis and neuritis pains start easing almost at once.

"Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.

Try it. You'll say it's marvelous.

ASPIRIN TRADE-MARKED BY BAYER

School Teacher Far North

**Girl Took Isolated Post When Lonely
Man Gave Up**

Lone white girl on the northern shore-line of Lake Athabasca, north of Goldfields, Sask., Miss Helen Barr prefers the dog sled to the newest models in streamlined automobiles. She is the school teacher at Cannery Bay, isolated fishing settlement across the bay from the gold town.

Miss Barr came north from her home in Imperial, central Saskatchewan, to teach school at Fort Chipewyan. When the male teacher resigned at Cannery Bay, because the post was too lonely, she accepted the position. Her pupils range from 5 to 20 years of age.

Switzerland's Ice Flower
Ice flowers grow through solid ice. The ice flower of Switzerland, known as the "Soldanella," grows and forces itself right through the snow and solid ice, to blossom in the sunshine.

Hawaii has 1,000,000 acres of forest, more than half of it government owned.

New Trade Agreement Negotiated Between Canada And Germany

Ottawa.—Foreign exchange accruing to German exporters from the sale of goods to Canada will be made available to German importers for the purchase of goods from Canada under agreements signed by representatives of the two governments last week.

The pact, negotiated and signed by Hon. W. J. Euler, minister of trade and commerce, on behalf of Canada, and Dr. Hans R. Hemmen, councillor of embassy, on behalf of Germany, are a most-favored nation trade agreement and a "payments agreement," providing for the allocation of foreign exchange.

Texts of the two agreements were released here over the weekend by Mr. Euler and simultaneously announced in Germany. Coincident with the agreements, Mr. Euler announced the German government had undertaken to remove the discrimination which previously existed against Canadian citizens in comparison with United States citizens in respect of their holdings of certain German bonds.

The payments agreement marks a new departure in Canada's commercial relations with foreign countries and arises out of German restrictions on the granting of foreign exchange which cut down imports from Canada. It will make possible an almost even balance between Canada's exports to and imports from Germany.

The trade agreement itself merely provides for the extension by either country to the other of most-favored nation treatment in the matter of tariff rates and customs regulations. On the Canadian side this means the intermediate tariff or any lower tariff extended by treaty to any

country outside the British empire shall be applicable to German goods imported into Canada.

On the German side it means the German minimum tariff for Canadian goods which places imports from Canada on the most favorable basis accorded to imports from any other country. The only exceptions are special privileges extended for the facilitation of frontier trade, privileges arising out of a customs union with another state or special agreements conforming to recommendations of the conference of Strass.

As most-favored nation arrangements have been in effect between the two countries on a temporary basis, importance of the payments agreement outweighs that of the trade agreement, so far as Canada is concerned.

The two agreements take the place of the arrangements which came into effect on Jan. 1, 1933, whereby Canada extended the intermediate tariff to German goods imported into Canada in return for most-favored-nation treatment for Canadian goods imported into Germany.

The advantages Canada expected to derive from that arrangement were to a large extent nullified by the drastic cutting of the granting of foreign exchange introduced in Germany in September, 1934.

The German exchange control had the effect of greatly curtailing German imports of Canadian goods, mostly metals and minerals. During the 12 months ending September, 1935, Canada imported German goods to the value of \$10,716,631 and exported \$5,745,021 worth.

It was to rectify this unfavorable balance that the new agreements have been concluded.

Retiring Allowance

C. P. Fullerton, Former Chairman of C.N.R. Board, To Receive \$30,000.

Ottawa.—C. P. Fullerton, former chairman of the board of trustees of the Canadian National Railways will receive \$30,000, one year's salary, as a retiring allowance. An order-in-council has been passed by the cabinet approving the payment.

Mr. Fullerton was appointed for a term of seven years but legislature altering the railway setup resulted in the abolition of his position before this term expired.

It has also been learned the government has decided to retain Hector Charlesworth, chairman of the Canadian Radio Commission, in an advisory capacity to the newly-created Canadian Radio Broadcasting Corporation which will replace the commission at the end of this month.

Medical Supplies

Montreal Surgeon Goes To Madrid To Aid Suffering

Toronto.—Dr. Norman Bethune, Montreal surgeon and head of the Canadian medical mission to Spain, conferred with Spanish tourist leaders here prior to his departure for Madrid with large quantities of medical and surgical supplies. "I'm only heading the call of 1,000,000 people suffering and needing medical aid," he said. "I'm not going over for the adventure. Even though Madrid is besieged, we'll get in by aeroplane."

Great Britain May Purchase U. S. Aircraft For Royal Air Force

London.—Great Britain, a reliable source said, plans to purchase United States aircraft for the Royal Air Force because domestic production has been unable to keep up with the country's rearmament program. (Havas reported there were rumors in London the air ministry had placed orders for 300 planes with Canadian branches of United States firms. The planes would be shipped directly to England from the Dominion, it was said.) Despite denials by the air ministry, it was reliably reported those favoring American purchases were winning out gradually against those in the ministry wishing to buy in Britain only.

One unconfirmed report said 300 planes already had been ordered in the United States.

Although the British government is understood to look with favor on the latest American naval and military plans, it was asserted in aviation circles there was little likelihood Britain would be able to purchase the same types, since they are on the United States secret list.

The air ministry has not yet decided, it was reliably reported, whether to ask American manufacturers to turn out planes along lines similar to the United States army and navy machines or to follow British design.

A London cable to the New York Times said the first orders would be for twin-engined and single-engined light bombers and were expected to go to the Martin and Curtiss-Wright companies, both of which have large plants standing idle.

Russia Fears War

Spanish Trouble Has Created Dangerous Situation In Europe
Moscow.—Russia is ready to quit the Spanish non-intervention pact and send warplanes to the Madrid government, authoritative sources said.

With the insurgents striking ever closer to Madrid, these sources said, the Kremlin feels it must send munitions and planes as the only way to prevent establishment of another Rightist dictatorship similar to those in Italy and Germany.

Highest officials were agreed recent developments growing out of the Spanish war have created "the gravest days" in Europe in two decades.

Dictator Josef Stalin, informed persons said, is convinced Europe is nearing the abyss of another war, and Russia must make her influence felt immediately and in the strongest and most unmistakable terms.

Grant For Alberta

Federal Advance For Relief Purposes In Drouth Area

Edmonton.—Federal grant of \$1,000,000 has been made to cover the Dominion expenditures for feed and free freight to give relief to the drouth area in Alberta until March 31 next, it was announced here by John Vallance, chairman of the committee named to administer the Prairie Farm Rehabilitation Act. He conferred with provincial government officials. No figures were available on direct relief which the Dominion also has undertaken.

Mr. Vallance was here with M. Mann of Regina, technical agriculturist for the committee, who has been loaned to supervise the federal relief for the drouth areas in the three prairie provinces. In visiting various points Mr. Vallance is giving his assistance and advice to Mr. Mann.

Stranded In Sub-Arctic

Crew Of Motorship On Great Slave Lake Must Wait For Freeze-Up

Port Resolution, N.W.T.—Captives of the sub-Arctic, 24 men aboard the motorship Silver Queen, ice-locked on Great Slave lake, prepared to spend several weeks of enforced imprisonment on the boat waiting for the northland freeze-up. Port Resolution is about 675 air miles north of Edmonton.

Departure for Edmonton of two aeroplane pilots who had been poised at Fort Smith, N.W.T., ready to take the crew from the Silver Queen indicated hoped-for favorable weather was not expected and Capt. H. L. Secret and his men would have to stay on the boat until after the freeze-up, probably about Nov. 21.

Court Mourning Over

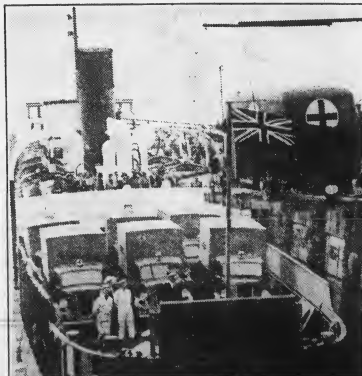

London Society Hostesses Preparing For Autumn Festivities

London.—Royal court mourning for the late King George ended with society hostesses busily preparing for an autumn whirl of festivities heralded as the most brilliant in many years.

For the first time since King George died members of the royal family will now be able to attend theatre, receptions and balls.

Both King Edward and the Duke of York have many engagements to fulfill in the coming weeks. But in the middle of November His Majesty will slip away from London and talk with his poorer subjects in the hard mining towns of Wales.

SCOTTISH AMBULANCES EN ROUTE FOR SPAIN

Our picture shows a Scottish Ambulance Unit of seven cars and a personnel of 20, embarking at Dover for Calais, on the way to Spain. This is likely the unit which the Spanish Government charges was bombed in broad daylight on Oct. 4 by the insurgent forces.

F. C. BLAIR

By a re-organization of four Government Departments at Ottawa there has been created a new Department of Mines and Natural Resources. It will be divided into five units with a director in immediate charge of each unit. Mr. F. C. Blair (above) now Assistant Deputy Minister of Immigration, will be Director of the immigration unit.

Radium Monopoly

Canada May Soon Be In Position To Supply The World

Ottawa.—Canada may soon enjoy a monopoly in supplying the world's radium needs Dr. G. C. Laurence told the Engineering Institute of Canada at a luncheon here.

Dr. Laurence said with each successive find of radium in the past the new field had obtained a monopoly on the world trade. First it was Czechoslovakia, then Colorado and then the Belgian Congo which held the monopoly, the latter country obtaining it 1929-30.

Now the Canadian product, produced from ore at Great Bear Lake, had successfully challenged the Belgian monopoly and had brought down the price. If history repeated itself Canada would gain the monopoly.

The Potential West

Says Western Canada One Of The Richest Countries In The World

Montreal.—European nations and the United States are becoming "more and more aware that western Canada is potentially one of the richest countries in the world," Rev. A. J. Vining of Toronto told the Baptist convention of Ontario and Quebec.

"New and unusually important opportunities for economic expansion existed in vast and rich northern sections of the Canadian prairie provinces," the secretary of the western mission board declared.

His report stated new development already went forward and 52,000,000 acres of valuable agricultural territory were available for cultivation.

Heavy Sentence

199 Years Imprisonment For Fifteen-Year-Old Youth

Chicago.—Fifteen-year-old Roland Munroe, Jr., was convicted of beating an elderly crippled widow to death with her own cane and heard his punishment fixed by a criminal court jury at 199 years imprisonment.

Deliberating slightly more than three hours, the jurors disregarded the defence contention that young Munroe, an effeminate mannered high school student given to curling his red hair and spraying himself with perfume, was insane by reason of his abnormal tendencies.

Bank Loans Under Home Improvement Plan In November

Importance Of Mining

Is Playing Important Role In Bringing Back Recovery

Ottawa.—Hon. T. A. Cresser, minister of mines and resources, is enthusiastic over the growing importance of mining in Canada's industrial picture. Just returned from a trip through western Canada and visits to many mining areas, Mr. Cresser said mining was playing an important role in bringing about economic recovery in Canada.

The minister said he visited the Central Patricia and Red Lake districts in northwestern Ontario and the Bridge River and Trail areas in British Columbia. Much of his travelling was done by aeroplane.

One of the greatest needs of the mining area was cheaper transportation, he said. Many enterprises were being carried on under the handicap of heavy transportation costs and greater progress could be made if cheaper transportation were available.

Canada's gold production this year would be close to \$135,000,000, Mr. Cresser said, and the significance of this for the general economic position could be appreciated when it was recalled that in 1929 the country's gold production, equated at the present price, was only about one-third of this figure.

Plenty Of Work

Ontario Youths Satisfied With Farm Experience In West

Goderich, Ont.—"There's plenty of work in the Canadian west for those who want to work," chorused three husky Bruce county youths, passing through in an old motor in their route to their home near Port Elgin, Ont. after five months on the prairies.

The boys were Harold McArthur, Harold Cannon and Alvin Botterell, all in their twenties. They were in high spirits with money in their pockets.

"We went to Rimbey, Alta. in May and were never idle a day until we left for home," said McArthur.

"We made \$1.50 a day and board for general farm work and \$2.50 a day and board during the threshing season. We said we were from Bruce township in Bruce county and the job was ours for the asking—just like that. And we were paid in real coin of the realm—no scrip for us."

Ottawa.—Canadian banks in the larger centres will be ready to start making loans under the government's home improvement scheme the beginning of next month.

Arthur B. Purvis, chairman of the national employment commission, said excellent progress was being made in organization work. Application forms, instruction circulars to branch bank managers, and other necessary documents are now about ready and will shortly be in the hands of the banks across Canada.

There appeared to be some misapprehension about the date when lending money under the home improvement plan would start, Mr. Purvis said. As stated in his original announcement, the intention is to begin active lending operations in the larger centres on Nov. 2. It may be the banks will be in a position to go ahead also in the smaller towns and villages, depending on how quickly arrangements can be made.

"Some misunderstanding may have arisen owing to progress made in Windsor, Ont.," Mr. Purvis said. "There the work was so far advanced by active and enthusiastic community support that banks were making loans as soon as the home improvement plan was announced. Other cities and towns had, however, not been organized by local committees in advance. This organization work will be carried on as quickly as possible."

Severs Relations

Portuguese Government Breaks Off Diplomatic Relations With Spain

Lisbon.—The Portuguese government broke off diplomatic relations with Madrid. Foreign Minister Armando Monteiro notified the Spanish ambassador here his government had decided to suspend relations between the two countries and ordered the Portuguese charge d'affaires in Madrid to sail at once from Alicante for Lisbon.

Monteiro handed a note to the Spanish ambassador, Claudio Sanchez Albornoz, informing him the Portuguese government felt it obliged to break off diplomatic relations "for the reasons contained in this note."

He did not reveal, however, what these specific reasons were.

The foreign minister informed Albornoz Portugal reserves the right to make public the terms of the note at any opportune moment.

Lord Tweedsmuir Makes Appeal For Charitable Campaign

Ottawa.—As a curb to ill-directed individual charity, which "may be ill-informed, and therefore ineffective and sometimes mischievous," the Federated Welfare Services of Canada serve to "pool the goodwill of the citizens," the governor-general said here in an appeal for public support of the charitable campaign now in progress.

This co-operation meant economy in working expenses and "a wise strategy in direction," Lord Tweedsmuir said.

"This 'mass attack' on the benevolence of the citizens was something unknown in the United Kingdom, but His Excellency thought it might profitably be imitated. It organized and directed into proper channels the forces of private philanthropy, with the happiest results.

"We have been living through years of stress and strain. The skies are clearing and the storm abating; but it has left uneasy waters behind it and a great deal of salvage work before the nation," Lord Tweedsmuir said.

"There are many individuals and families who have fallen below the standard of civilized life. There is much sheer physical distress to be relieved. More important still, we have to face the moral effect of years of continued unemployment. Household goods have been scattered, family life has been dislocated, men and women haunted by economic insecurity, have begun to lose their nerve, and look out upon the world with hopeless eyes. We have not only to succor the body but to revive the spirit."

Much of this task must fall upon the state and to its performance.

every taxpayer contributed. But the matter could not end there. The state today had greatly enlarged its area of duty.

"But that is not enough. There will always remain a big margin which no government can reach and which must be left to private benevolence," His Excellency said.

He had long been engaged in similar work at home and when he surveyed the Canadian situation he found many grounds for encouragement. Canada had great urban centres with their poverty-stricken areas, but nothing like the swollen and almost unmanageable conglomerations of population obtaining in Britain.

"But to balance this advantage we have our great distances, our sparsely-peopled areas, which make the task of relief difficult, and where even the state may be subject to other privations," said Lord Tweedsmuir.

"Yet I cannot but feel that in Canada the task before us is in a special sense a repaying task.

"We are working on fine stuff. I have just returned from a long tour in the west, during which I have visited some of the worst of the drouth areas. I saw very many impoverished homes; but if there was poverty of means there was no poverty of spirit. These people are facing difficulties as great as, perhaps greater than, those of the old pioneers, with the true pioneer fortitude. That is one instance; I could give others from different areas. We have a greater spirit in our nation to conserve, and where it has been weakened, to fortify. We are building with sound materials on deep foundations."

Hard to Fit?

HAVE you experienced difficulty in securing a dress to fit you properly? Do you find the dresses you order a little tight in the hips, a bit narrow across the shoulders or short in the sleeves? Do you find it hard to decide what type of foundation garment you require?

If these are your problems, then your figure probably is a little different from the average type. You are the type who should measure yourself very carefully or, better still, you should have somebody else do it for you. Never be satisfied to order the same size you had last time. Measure and make sure of the size you wear every time you order.

Why not write to EATON'S Stylist Service, enclosing your measurements, and I will be glad to advise you regarding your requirements. However, you must remember that I am not a Shopper and act solely in an advisory capacity.

Just Write

EATON'S

Bud Clark and Buck Eyezack, neighbors of The Journal office for many years, have moved, taking with them the dog, the cat and the radio. They have not announced when they will have the house-warming of their new quarters. The Journal wishes them good luck.

NOTES AND COMMENTS

AMONG twelve things to remember, the twelfth is "The joy of originating." The complete list is published in this paper. It would be helpful to paste it in your hat or other convenient place. The last one interested us because we were just trying to originate something of interest to fill the allotted space, and were not finding any joy worth considering as such.

IT WAS Stephen Leacock, "professorial humcrst," recently pensioned into retirement from McGill university, who stated that you first of all must think before you write; then when you do write, it may be of no consequence; but it might lead on to something in another line of endeavor which would bring you happiness. The only happiness which we may have experienced is on reading the column after it has been printed to find not a single error had been overlooked, for no matter how carefully you proof-read a column of type matter, invariably the error which has escaped detection will stick out like a sore thumb when it is too late to do anything about it, and out it goes among our intelligent high school girls and boys, who will not hesitate to let you know they have discovered an error.

THIS is not getting on with originating anything, except so much "blah," just stalling for time or space. Some say there is nothing new under the sun; that what happens to-day may have happened in the dim and distant past. However, though it may be true in many respects, yet there are as far as human knowledge goes, no records of flying machines, automobiles or submarines. They were originated in our lifetime, and encyclopedias do not refute the statement. It is only in comparative recent years, since 1900, A.D., that Wilber Wright designed a glider, and being asked if he was going to put an engine into it to propel it, said he might later on; what he was interested in at that time was how to stay in the air in a manner similar to a large bird which glided without perceptible wing motion. Wilber and his brother Orville originated something on the sand dunes at Kitty Hawk, which resulted in providing the fastest method of transportation known to man.

THE continual problem for ambitious people is to originate something. Self-contentment may be a lazy state of mind, or it may be a happy state, the viewpoint would differ with the individual. But self-contentment is not conducive to originating something. Of course, on the other hand, ambition may lead to disaster, but far better to have tried and failed than never to have tried at all, for human progress is only achieved by a system of trial and error and retaining the good and casting aside the bad.

EACH in his own humble or limited sphere may originate something. Or he may imitate or borrow from the ideas of others, but if in doing so he improves the welfare of himself and his fellows, then he has done something worth-while. So far, you'll notice, we haven't originated anything, except what some literary hounds would term "tripe."

BISHOP Sherman, head of the Anglican diocese of Calgary, is handicapped by extreme difficulties as a result of radical debt legislation. Income on investments has been reduced from \$7,000 to \$600, besides which it has been lessened by other causes, among which is lack of giving by church people. Speaking of debt legislation, the bishop stated: "As a result we need a restoration fund. The act had not effectively a reduction in the capital accounts by approximately \$20,000, but would also deprive the diocese of all interest earnings on 91 per cent of its invested funds. Our income from invested funds is now practically wiped out."

TRYING to maintain stipends of 41 clergy besides meeting other Diocesan expenses is a heavy tax on the bishop, for he has to shoulder most of the responsibility, and is not receiving the backing he deserves.

Speaking in Calgary, he puts the issue squarely up to his people and others as well when he warns that "theories now being disseminated are dangerous in the extreme; classes are being separated and antagonism and prejudice are increasing day by day." Doubtless the bishop will receive the moral and financial support of those who are loyal to the church. The present conditions impose a heavy strain which must be lightened, and this appeal must be met with money if churches are to remain open.

YOUNG people and their parents will be all agog over next week's musical festival. The children, and older competitors, will climax weeks of practice in demonstrating to an eager public their abilities with the violin, piano or their voices. Increased entries indicate the popularity of the festival, and to add to the interest brass bands and orchestras will contribute their harmonies to the program.

TUESDAY next will settle the big question in the United States—Roosevelt or Landon?

Planning Remembrance Day Service

The anniversary of the signing of the Armistice terminating the Great War will be locally observed in the Community hall on Wednesday, Nov. 11, commencing at 10.45 a.m. At a committee meeting held on Sunday the following tentative program was arranged:

Ex-service men, Boy Scouts and Girl Guides meet at town hall at 10.30 a.m. and leave for Community hall, headed by Coleman Band. Service to open at 10.45 a.m., chairman, H. T. Halliwell. Opening hymn "O Canada," led by Miss Powell's high school orchestra, followed by prayer and scripture reading by Rev. A. S. Partington and Capt. Fitch of the Salvation Army. The address will be delivered by Rev. H. J. Bevan. (originally with the 50th Battalion, C.E.F., in France.) "Last Post" and "Reveille" followed by placing of wreaths on Memorial tablet, and reading of

Local News

Major H. F. Taber, R.C.S., was here on Tuesday in connection with the aerial survey being undertaken on the mountain section of the trans-Canada route. A. D. McLean, of Ottawa, was the guest of his brother, Dr. T. K. MacLean, and Mrs. MacLean, during his visit here on Monday and Tuesday, as was also Mr. Robertson, of Regina.

Remember the Hallowe'en dance on Saturday evening in the Community hall, with Arcadians orchestra, 9 till 12. Come early and enjoy three hours of dancing.

Coleman Cash Grocery added to the efficiency of their delivery service this week with the purchase of a new G.M.C., 6 cylinder truck. The sale was made through Sentinel Motors.

Mrs. George Pattinson received the sad news this week of the death of her father, Mr. Robert Graham, 79 years, at Nenthead, Cumberland, England. His wife died many years ago. Mrs. Pattinson last saw her father when she visited the old home about six years ago.

The Journal has a namesake—the Weekly Journal, published by Ronnie Jones. He prints it by hand, and at the headstache the subscription is four pines or two safety pines. The thought that intrigues us, is what does he do with the pines? His assistant editor is Norman Hopkins.

Clarence Campbell of Edmonton, premier hockey referee in Alberta, was signed last week by the National Hockey League to officiate at their games for the coming season. Campbell, it will be remembered, refereed the game between Drumheller and Coleman at the local arena last year.

The Catholic Ladies Aid annual bazaar and Tombola on Monday next will create local interest among church members and their friends. 16 useful prizes are offered in the drawing, and the fish pond for the children will prove attractive. Tea will be served from 3 to 6 p.m., at which the ladies will extend a hearty welcome to all.

Mrs. J. C. Richards was pleasantly surprised Monday evening when a number of ladies called to offer congratulations on her thirtieth wedding anniversary. She was presented with a small gift and a bouquet of red and white carnations. During the evening bridge was played, the honors going to Mrs. H. Davies, Mrs. J. Mitchell and Mrs. Robt. Gillies.

Honor roll by Col. R.F. Barnes. The council will be represented on the stage by Mayor Pattinson, the coal companies by Mr. G. Kellock, and the Guides, Scouts, Legion and Auxiliary by executive officers of those organizations.

Cards are being sent to every ex-service man carrying an invitation to attend the service, the length of which will be about one hour.

In a Hurry
"Gimme a haircut," ordered the customer, "and make it snappy."
"Certainly," replied the barber; "Just sit right down here."
"Never mind," said the man. "I'll stand."

"Come, come," smiled the barber. "Why don't you sit down?"
"I'm sorry, explained the other. "But I'm in a hurry!"—New York American.

Reason Enough
Employer: "Haven't you sent out those circular letters yet?"
Stenographer: "No, sir, I could find no circular envelopes!"—Passing Show.

CENTRAL-SMART INEXPENSIVE

The United Church

At the morning and evening services on Sunday's reference was made to the special nationwide effort to bring a sense of renewing into the life of the various churches.

All Protestant bodies are uniting in this undertaking and it is addressed primarily to the present membership rather than to those who have no connection organized religion. If the whole membership of the local congregation of the United Church were to rally to the services and work of the church the results would be surprising both to themselves and to the community generally.

Those who should be concerned are asked to plan to attend the services and to support the church to the best of their ability. Let Coleman keep pace with this effort.

The quarterly Communion service will be held on Sunday at 11 a.m. All members and adherents are asked to be present and make their communion as a definite act of dedication of themselves toward the ideal of a Christian Social Order. All believers are invited to the service and to the Communion.

The cleaning and refurbishing of the lights in the church resulted in a much more cheerful atmosphere for the evening service, which was rather better attended than usual.

Big Doings At The Army

Saturday, Oct. 31, at 3 o'clock, Home League Sale, home cooking, sewing, afternoon tea, candy, fish pond for boys and girls.

Starting Friday, Oct. 30, meetings will be held every night, except Saturdays, for the next ten days. Special speakers from the district will include Lieut. Mattison from High River, Envoy Frayne from Lethbridge, Captain Frewing from Fernie. Special music; surprises for the young people every day after school. Come and tell your friends.

St. Alban's Church

Trinity 21—All Saints' Day. 11.15 a.m. holy communion. 12.30 p.m. Sunday school.

Big S. A. Rally for Major and Mrs. Acton

The Salvation Army hall was packed to capacity to see the dramatic presentation of a two-act play, "Little Mary," arranged by Mr. Albert Knowles. Music was supplied by the Fernie band under the leadership of Lieut. Clark. Captain Frewing of Fernie presided over the evening and also added to the enjoyment with his vocal selections.

Major and Mrs. Acton spent two very busy days in the Pass, and were very warmly received by comrades and friends. A public meeting was held on Thursday night in which both young and old united. Mrs. Acton met a small group of women on Friday afternoon and those who attended were greatly repaid for their effort as they listened to her inspiring and helpful words.

Friday afternoon found the boys and girls swarming to the hall to see their old friend Major Acton do some more of his tricks, which he very ably adapts to bring home the spiritual lessons he desires to the hearts of the young people. The visit of the leaders was climaxed with a great rally at night. The Fernie band with Captain Frewing and Lieut. Clark were present.

The Blairmore Fellowship Group along with Rev. A. E. Larke came to enjoy an hour. Mr. Larke spoke highly of his contacts with the Salvation Army and spoke to the young of Holman Hunt's "Picture of Christ."

Mrs. Acton illustrated a bible lesson for the boys and girls and

November FURNITURE SALE FEATURE

MATERIAL costs are sky-rocketing; labor costs are rising steadily, yet here—for this sensational November Furniture Sale—we offer the greatest values in the history of our store. Every article built to the most exacting specifications from top to bottom.

More Bonds Purchased for Legion Club

The building committee of the Canadian Legion club have received an additional number of applications for the purchase of \$25 bonds, and it is intended to personally canvas every ex-service man employed here. The advantages of a club as headquarters for the Legion are such that the committee has every confidence the proposal will meet with hearty support and urge every ex-serviceman, whether a member of the Legion or not, to agree to purchase a bond. They are payable \$2.50 a month for ten months, and will be repaid from club profits, or interest of 5% will be paid on bonds which are allowed to remain with the club.

Jumbled Pastimes
"They say Jones is devoted to his golf and his wife is equally fond of auction sales."
"Yes, and the funny part about it is that they both talk in their sleep. The other night the people in the next apartment heard him shout 'Fore!' and immediately his wife yelled, 'Four and a quarter!'"

Proof
"Water attracts electricity."
"Have you made tests to prove it?"
"Yes, every time I'm in the bathtub the telephone rings."
Worth The Price
Skjold: "Has your son's college education been of any value?"
Bjorn: "Oh, yes, it cured his mother of bragging about him."—Atlanta Two Bells.

Local News

Hallowe'en on Saturday.
Miss K. Stafford from Pincher Creek is the guest of Miss Helen Webster.

Col. Wright, of Vancouver, will visit Coleman on Nov. 12 to give an address on British-Israelism. Misses Joy Emmerson and Margaret McLeod spent the week-end at Lethbridge.

Mrs. T. Flynn received word Monday of the death of her niece, Joanna Dillon, aged 22, at Seattle, Washington.

Mrs. Webster entertained at bridge on Wednesday evening. Mrs. J. Nash winning first prize and Mrs. Davidson second.

The prize winners at the Rebekah whist drive on Tuesday evening were: Mrs. Lant, and Mrs. J. Richards, Mrs. Davies, and Mrs. W. White.

Rev. H. J. Bevan will give an address to the school children concerning the "Poppy Day Campaign," at 2:30 o'clock on Friday afternoon at Coleman Central School.

Barking dogs are particularly annoying at night, and owners should exercise care to avoid annoyance to neighbors. Roaming horses are again beginning to cause damage to garden fences.

The curtain rings down on the fabulous story of THE GREAT ZIEGFELD, the most sensational entertainment ever presented on Stage or Screen! To be shown at COLE'S theatre at a midnight preview, Sunday, Nov. 1, at 12:01, and also November 4-5-6-7.

Announcement

Mrs. John Bell of the Elite Confectionery will act as agent for the Marquis Flower Shop, Lethbridge. All orders entrusted to her will receive prompt attention.

IN MEMORIAM

IN LOVING MEMORY of my dear mother, Elizabeth Hopkins, who passed away October 30, 1935.

Mother, sweet be your rest
And gentle your sleeping.
God's way is best.
You are in his keeping.
—Ever remembered by her husband, sons and daughters.
